

Sprint 3 Report

Product Name: Smart Budget

Team Name: FTX

July, 24, 2023

Actions to start Doing

- Communicate tasks that are currently being worked on more often. Daily
- When creating a feature try to give a short summary in the form of comments or readme that explains the implementation so others understand
- Try to look for things to do instead of waiting to be assigned

Actions to stop doing

- Not pulling the changes from main and resolving merge conflicts in a branch before merging the branch to main
- Not attending daily scrum meetings
- Not posting what tasks you're currently working on
- Not commenting code

Actions to continue doing

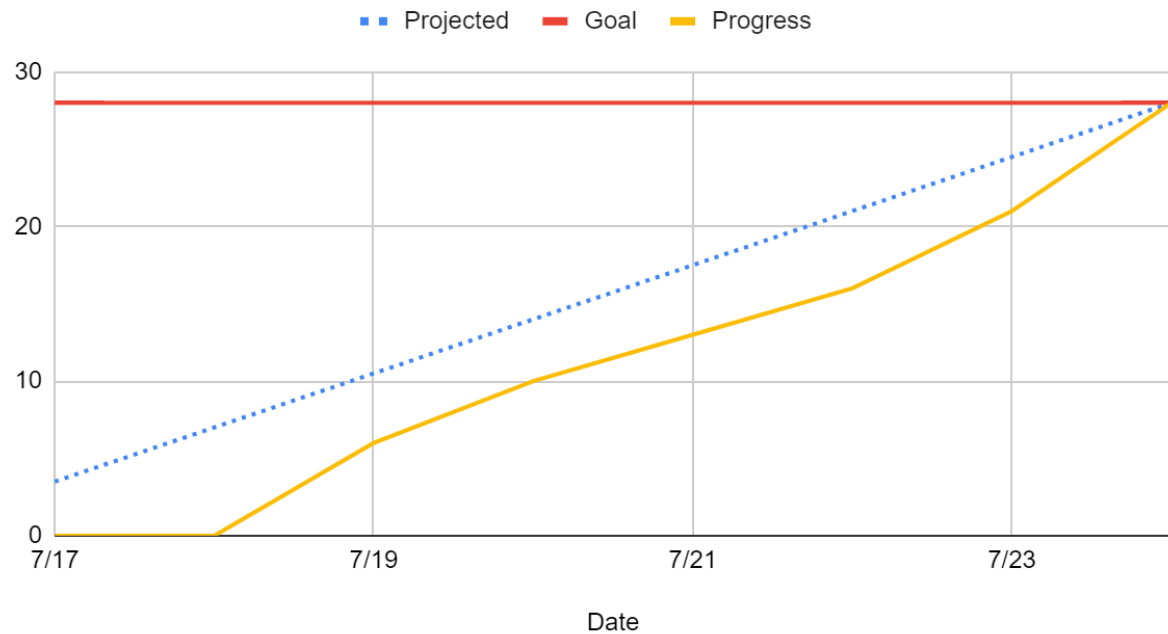

- Holding daily scrum meetings
- Creating a daily task list in discord
- Refactoring

Work completed / not completed

- The notifications user story was not completed and was moved to the product backlog
- The two factor authentication was also removed from the security user story
- All other work was completed
