

## Sprint Report #1

Product Name: Smart Budget

Team Name: FTX

July 10, 2023

### Actions to stop doing:

- Stop missing meetings due to scheduling. If a scheduling interruption occurs then communicate with team members
- Stop relying on partners to finish tasks. If a team member is not communicating or helping to participate in tasks then do not indefinitely wait for them.
- Stop procrastinating. Wasting time doing things that aren't helpful to the progress of the project.

### Actions to start doing:

- communicate more often by messaging and calling in order to get messages across.
- taking more commitments on time by balancing time.
- enforce completion of tasks from assigned individuals by making sure the task is completed and the code works well
- enforce punishments. If someone is not doing the work, then they should get penalized.

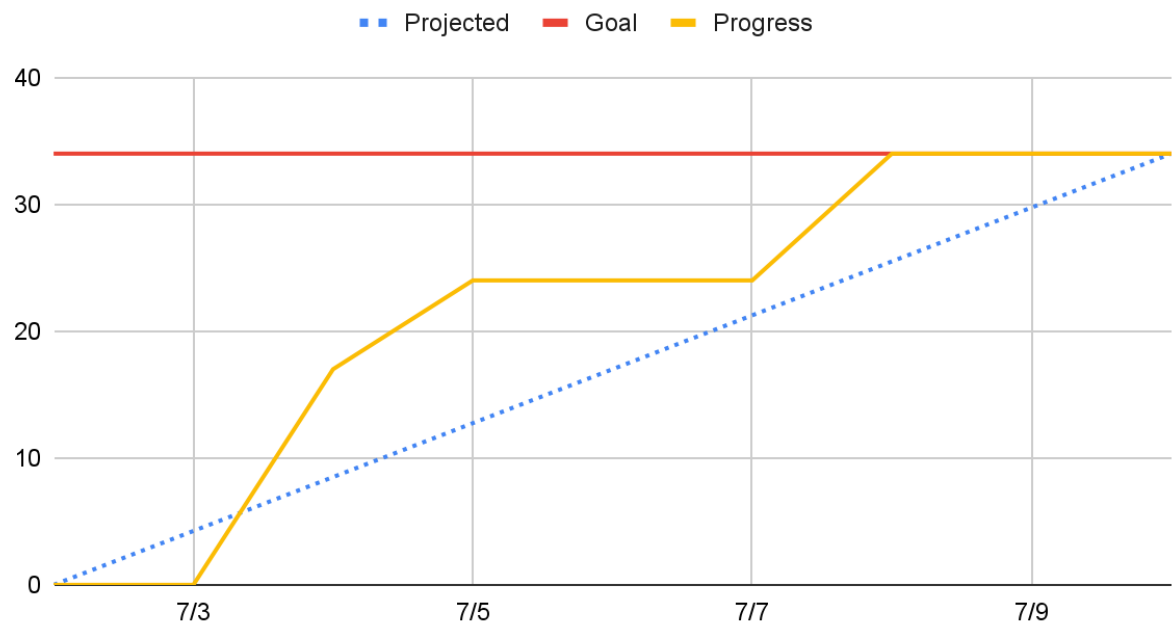

### Actions to keep doing:

- Productive meetings. When everyone in the team was able to share the progress that they did and make sure the vision of the team was clear.
- discord discourse. Using discord as informal communication helped to provide better planning and status updates among team members.
- starting ahead. Starting communications early and contributing to the planning process helped increase the productivity of the project.

### Work completed/not completed:

- Implemented home page, login page, backend, profile page, some css

# Smart Budget Burn-Up Chart

Work completion rate:

- Two user stories were completed in the sprint. Total estimated ideal work hours were 16. Total number of days were 7.
